Old grazed pasture

Key habitat

Pasture with oaks

Connection from the road to the path.
Start here when the recycling centre is closed.

The start of the path. Map

The first pond connected to the sewage plant

The chemical stage

A bird hide

Birds in the bay. Here you find the largest colony of herons in the region

This used to be a grazed meadow with a lot of different flowers. We are trying to recreate it through hay making

Connection from the path to the gravelled road
